

**School of Science, Technology and Engineering
Student and Alumni Advisory Council
2004-2005**

The role of the Student Advisory Council is to examine and discuss issues of importance related to the School of Science, Technology and Engineering, its departments and programs. Together with the Dean, the student advisors also explore ideas and suggestions for the improvement of the student educational experience in the School. Any student taking an STE course can provide constructive criticism or praise through members of the Student Advisory Council. We encourage you to do so.

Biology

- Jessica Chapman
- James Maoirana
- Daniel Sbar

Chemistry, Medical Technology and Physics

- Jenna Case
- Jason Hackenberg
