YOUR ICE WITH A
SAVIN ICE PAD

EVERY time you use thirty cents' worth of ice without a Savin Ice Pad you waste ten cents. This is an absolute fact — not a theory. The largest users of ice in the East are equipping their refrigerators and ice-boxes with the wonderful new invention. It is being used in thousands of homes. Send us the measurements of your ice-box and we will send you a pad to fit it. Costs only 75 cents a square foot, delivered C.O.D. to any address in the United States.

Send for descriptive circular.

Burn less Coal

and obtain twice the *volume* of heat from each pound of fuel by Hot Water or Steam

Now simply and cheaply erected in old homes without in any way altering the house. Send for valuable booklet.

AMERICAN RADIATOR COMPANY
Makers of IDEAL Boilers and AMERICAN Radiators
Dept. A CHICAGO

Transplanting Lilies-of-the-Valley

WHAT is the best time to transplant the Lily-of-the-Valley? LUCILE.

Shortly after the plants have ripened their foliage. If this is done the roots will take hold on the soil and establish themselves so thoroughly that some flowers may be expected from them next spring.

Thinning Out Lilies-of-the-Valley

How can I thin out my Lily-of-the-Valley bed without interfering with next spring's flowers? MRS J. B. T.

Dig out little clumps here and there all over your Lily-of-the-Valley bed, and fill the vacant spaces with rich soil. In a short time the plants you leave will spread and fill them, and they will all bloom next season.

Where to Get Bonemeal

Where can I get the bonemeal you advise as a fertilizer for pot plants? W. L. L.

At any store dealing in agricultural goods. Or you can order it from your florist. Get the fine article. Coarse bonemeal is a long time in becoming assimilated, therefore not as satisfactory as the fine kind, which gives more immediate results.

Propagating the Japan Quince

How can Japan Quince be propagated? J. I.

The Japan Quince is propagated from cuttings or by layering. Root the cuttings in sand, and keep moist all the time. Layering should be done in summer.

Tea Roses in Winter

I have several Tea Roses in my garden. Would you advise leaving them there and covering them in winter, or would removal to the cellar be better? R.

I would advise lifting them in November, and packing them in boxes of earth. Put them in a cool, dark corner of the cellar, and give no water.

A Hardy Perennial Phlox

Please give me the name of a hardy perennial Phlox, pink or salmon in color. I. M. R.

Dawn is a lovely variety, of fine habit, and entirely hardy. All our perennial Phloxes are hardy, for that matter. You can set the plant in October with perfect safety.

Growing a Phlox from Seed

I am greatly interested in the Phlox since reading your recent article in THE JOURNAL. Can I grow it from seed? G. B. R.

The only way to get the colors you want is by purchasing plants from the florists. Seedlings cannot be depended upon to reproduce the colors of their parent varieties. Florists grow their stock from division of the roots; they are therefore able to send you precisely what you want if you order from their catalogues.

Keeping Winter Bulbs

How can winter-blooming bulbs be kept over the season? LOVER OF FLOWERS.

Bulbs which have been brought into bloom in the house are never to be depended upon for another crop of flowers. Get fresh bulbs each season.

Why Begonia Leaves Turn Brown

The leaves on my Begonias turn brown at the edges, and soon become rusty and drop off. The trouble seems to spread from one plant to another. What can I do to stop it? J. J. W.

The trouble is probably of a bacterial nature. The preparation called Copperdine, which may be bought of most florists, is the only remedy that I know of.

Trouble with Double Narcissus

Why does the double Narcissus blast its buds? MRS. W.

In many localities the Narcissus seems to be affected by some disease. The plants grow well, but the flowers fail to mature. No remedy has been discovered as yet.

Chrysanthemums in the House

Please advise me as to the removal of my chrysanthemum plants, and the care of them when I take

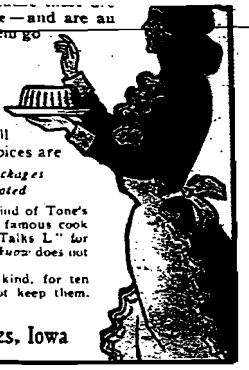
T. BROS SPICES

spices of sure quality — always the same — and are an economy because the strength makes them go so much farther.

TONE'S SPICES ARE BEST

for your pickled peaches, tomatoes, chili sauce, chow-chow, spiced currants, mangoes, citron, catsup and all your preserves and relishes. Tone's spices are

Always in ten-cent flavor-retaining packages
Bulk spices are dangerously adulterated



Sample Free

Large sample of any kind of Tone's spices, together with the famous cook booklet — "Tone's Spicy Talks L" for the name of a grocer you *know* does not sell Tone's spices.

We are willing to send package, any kind, for ten cents in stamps, if your grocer does not keep them. Write for the free booklet.

TONE BROTHERS, Des Moines, Iowa

The Joan
