here's New enticement for drowsy appetites

... new twice-crisped Puffed Wheat and Puffed Rice*

Cool...dainty...twice as crisp as ever before!

Here's the way to tempt lary summer appetites

THEY turn to energy so quickly! They're so dainty...cool...n/perhang! Yet so wholesomely nourishing. No wonder child experts recommend Quaker Puffed Wheat and Puffed Rice as the ideal hot weather cereals.

And no matter how hot the weather... no child has to be coaxed to cat Puffed Grains. Always, these are the cereals they prefer. Children in 42 states, given their choice of Ulcading ready-to-cat cereals, chose Puffed Grains as "the ones we like best of all."

Now these enticing grains have been made even more delicious. Now a special twice crisping pro-

cess crisps them. Crisps them again. Then hustles them piping hot into a new Seal-Krisp package. And so they come to your cereal dish as fresh as the moment they were shot from guns.

Heap cereal dishes high with these new, rustling, extra-crisp Puffed Grains. Tempt children to eat the cereal nourishment they must have. Remember, no other cereal provides Nature's health grains with every food cell steam-exploded to complete digestibility. No other cereal brings nourishing rice and wheat grains in such cool, dainty form.

Get the new Quaker Puffed Wheat and Puffed Rice from your grocer tomorrow.
