## LOOK WHAT YOU GET

IN ONE SERVING OF "ENRICHED 5 MINUTE" CREAM OF WHEAT

- 1 As much iron as in 4 eggs
- 2 As much calcium and phosphorus as in half a glass of milk
- 3 As much Vitamin B<sub>1</sub> and Niacin as in an equal amount of whole wheat

NO OTHER CEREAL SUPPLIES SO MUCH OF THESE HEALTH BUILDERS FOR LESS THAN 1c A SERVING!

like molecules with each tick of the persuading, predicting, analyzing; to wisdom or no sense, fact or lies. And trees in the world, and all the rags, are enough to supply the needs of those who write. As Uncle Billy himself would said, we are living in "the doggor talkingest age the world has ever see

Now this has both its dangers and its gations, as well as its pleasures and vi The more you talk or write, the more c you should be; the more you listen, the you should use your head, the more should consider evidence. Your ears at closest things you have to your brain they were put there as filters to sift th from the false, and not as catchalls or baskets.

Start with the assumption that r ganda has at long last come into its Start with the assumption that you all of us, are beginning to realize slow amazement, and also a good deal and bewilderment, what we should know long ago, and what all wise mer been telling us since the beginning, w that man's smallest member, the ton, the most powerful, the most deadly, l the same token, if properly used, the beneficent and constructive weapon entire armory. And don't let distar science, or even experts, or the printed fool you. It's all a man talking, a m like yourself, and too often it's a man t fast and for money. Nor is the radio, r typewriter, nor the printed page, and anything more than an extension human tongue, of the voice, just as th is merely an extension of the arm.

I have been watching a Missouri He's a wonderful fellow. He likes hors he keeps his eyes always open. Evc ture lives up to the adage that made h famous.

As early as the fifteenth century Le da Vinci pointed to the fact that the has more muscles than any other part body, and he wasn't being purely anat The Bible repeatedly advises us to gu lips, while profound thinker after thin told us in one way or another that t is mightier than the sword, that wo arrows, or bullets, or—best of all—flung into a pond, the ripples of which out endlessly. Plutarch wrote, "I was used to say that Cineas had take towns with his words than he with his and Shakespeare said, describing ir sible talk, "Slander, whose edge is than the sword, whose tongue out all the worms of Nile, whose breat on the posting winds and doth belie ners of the world." Where could you
