# What the Joneses discovered during the war

M

**Mom, who'd been putting on weight, has taken less sugar in her coffee and eaten a lot fewer rich desserts. Happy days! ...she can wear a 14 again!**

**Dad used to call salads and green vegetables "grass." But he's filled up many a chink with them since meat rationing began. Now he's as full of ginger as a colt.**

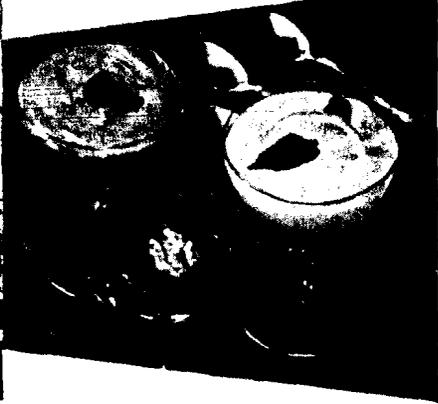

**Sis has stopped living all day on the ends of her nerves—she drinks milk with her lunch and cleans up her plate at dinner. If she forgets her rouge these days, nobody notices.**

**Brother, who used to go off to school with a cooky, now has a good breakfast, including a cereal with whole-grain nourishment. Result: fewer colds and a handsome report card.**

**Mom's downright clever at making the Joneses forget all about rationing and shortages. A delicious, satisfying Jell-O Pudding is one of her favorite stand-bys for bolstering up a skimpy meal.**

**It's O. K. with the Joneses—whatever flavor of Jell-O Pudding Mom can get at the store—Chocolate, Vanilla, or Butterscotch. All three have that real, old-fashioned goodness!**

Jell-O Puddings go faster 'cause the flavors are extra-special—rich Chocolate, specially made for Jell-O Puddings by the famous Walter Baker Chocolate people—delicate, smooth Vanilla ... brown-sugary, old-fashioned Butterscotch. Jell-O Puddings are products of General Foods.
