To keep my family fit with well-planned meals!

"EAT WHOLE GRAIN FOODS EACH DAY"—that is a part of the recommendations in the U. S. Nutrition Food Rules. Whole grain in its most delicious form is Nabisco Shredded Wheat—100% whole wheat with all of whole wheat's energy—a good source of Vitamin B₁ as Nature provides it.

YES, A GOOD SOURCE OF THIS IMPORTANT VITAMIN, per ounce as eaten, because Nabisco Shredded Wheat requires no further cooking. The keen, nut-like flavor of these crisp toasted biscuits blends delightfully with milk and fruits. Give the full name, Nabisco Shredded Wheat.
