

How to make chicken gumbo soup like *Campbell's*

Nobody'd call it *easy*—making the very special soup called Chicken Gumbo, an exciting blend of chicken and vegetables. Think of the time it takes just lining up the ingredients called for by this famous New Orleans recipe. Think of slowly simmering a chicken . . . dicing all the best meat . . . fixing all those vegetables! Red-ripe tomatoes . . . onions . . . crisp celery . . . a particular kind of okra. What's more, you've got to be ready with very unusual spices, and have the knack of keeping rice *fluffy*. Really, serving Campbell's Chicken Gumbo is lots simpler! Ready in four minutes—and perfectly *delicious*.
