Mrs. Walley has been paying attention to what more and more medical authorities are saying about the American diet. And she's making sure that her Little Leaguers and their Daddy are moving towards a better-balanced diet.

Whether at regular meals, or for an after-game tailgating celebration, she watches their calories and total fats—and in place of solid fats, she uses polyunsaturated vegetable oil. And the oil she uses is Mazola® 100% Corn Oil.

Why Mazola? Because of all the leading national brands, Mazola is highest in polyunsaturates.

That bears repeating. Of all the leading national brands, Mazola is the highest in polyunsaturates.

To Mrs. Walley, the well-being of her team is paramount. That makes Mazola more than worth

the few extra pennies it costs. P.S. She uses Mazola® Margarine, too. It's made with liquid Mazola Corn Oil.
