

The midnight snack (father and son)

It's midnight and your infant son somehow persuades his father to have a little snack. That's when you'll want to have ENFAMIL NURSETTE® around—to make it easy for father. Because we've done all the preparation for him. All he has to do is put a nipple on the ENFAMIL NURSETTE and feed it to his son. The convenience of NURSETTE is for father. But the nutrition is for baby. The kind of nutrition that helps build strong, healthy bodies. Solid bone structure. Good muscle tone. Good overall physical and mental development. And a healthy set of lungs and vocal cords (to help him persuade father to do it again tomorrow night).

So ask your doctor about ENFAMIL® Infant Formula. Ask him if it is as good for your baby as we say it is.

It is.
