

# The Schifano kids started Polyunsaturating Grandma

with chicken cacciatore and Mazola.

The Schifanos are not health fanatics, and they don't want to turn Grandma into one. But they pay attention to what many medical authorities are saying about the American diet. So, the family has cut down on calories, total fats, and are replacing bad fats with polyunsaturated vegetable oils. The Schifanos use Mazola® 100% Corn Oil. Why Mazola? Because

it's higher in polyunsaturates than any other leading national brand. Mind if we say that again? It's important. Mazola Oil is the highest in polyunsaturates of all the leading national brands. That's why Mazola is more than worth the few extra pennies it costs.

P.S. They use Mazola® Margarine, too. It's made with liquid Mazola Corn Oil.
