

How McCormick/Schilling saved my marriage.

people. So when it comes to making sauces, gravies, or anything at all, they put a lot of good flavor into everything they make. Which can make a big difference in the meals you make at home.

Take their spaghetti sauce, for instance. With McCormick/Schilling Spaghetti Sauce Mix, you just open a package. Add some tomato sauce, and special ingredients of your own. And, you've got it made. The thickest, richest spaghetti sauce you could ever imagine. With a delicate mixture of more than 13 different spices, herbs and special flavorings, that makes a great tasting spaghetti sauce every time.

Which made a great difference in the meals I made. And a noticeable difference in our marriage.

In fact, you could say McCormick/Schilling helped us tie the knot. And, for once, it wasn't in Harold's stomach.

How McCormick/Schilling Saved my Burgers Italiano.

McCormick/Schilling flavor makes all the difference in the world.

McCormick/Schilling

If the way to a man's heart is through his stomach, I must have gotten Harold on the rebound. When we first were married, Harold used to tell our friends that every time he saw me he got butterflies in his stomach. But, he wasn't sure if it was love or indigestion. Unfortunately, after the honeymoon was over, he found out.

Not that I was a bad cook, mind you. It's just that when it came to eating, Harold had a weakness for spaghetti sauce. Which happened to be my weak-

ness, too. In fact, you could say that I made spaghetti sauce, the way Harold sang. And believe me, if Harold ever had to sing for his supper, he'd die a very hungry man. Which is what Harold usually was, to begin with.

Oh I tried. Veal Parmigiana. Burgers Italiano. Meat Loaf a la Gondola. But, no matter how hard I tried, my spaghetti sauce always seemed to miss the boat.

Until I discovered McCormick/Schilling.

You know, McCormick/Schilling are the spice and flavor
