Want to lose 4 pounds fast?

Slender's nutritionally balanced program gets quick results

You, too, may lose 4 pounds the first week with Slender. Why not? Just don't backslide. Stick with 900 Slender calories a day and you'll get a thrill when you step on the scale.

Clinical study works for problem dieters

We put people, who were at least 20% overweight, on Slender for three weeks. That's four Slender meals a day, totaling 900 calories. At the end of the first week, dieters had lost an average of more than 4 pounds. During the next two weeks, losses averaged 3½ pounds a week. Many of the dieters on the program told us they were not unduly hungry and found Slender "surprisingly filling."

Low in calories, high in nutrition

Many 900 calorie diets are fad diets which emphasize one nutrient over others. But a Slender meal is nutritionally balanced. Whether it's instant Slender, mixed in milk, or Slender chilled from the can—every glass supplies ¼ of your daily recommended adult dietary allowance of protein.

minerals you need, including vitamins C and B-complex.

Slender counts calories for you

With Slender, you don't have to get involved with measuring out tiny portions of this and that. And you avoid costly calorie mistakes which may undo your diet. Slender counts the calories, so you always know where you stand in the calorie battle.

How to slim down sensibly with Slender

If you want fast results to get your incentive up, go strictly Slender for a week. Then go back to other foods in diet proportions, but have your Slender for at least one meal. Whether you go strictly Slender again for another week later on depends on how much you want to lose. But you should ask your doctor before starting any program aimed at weight loss.

One thing's certain, you'll find Slender wears well in your diet. It's so rich and satisfying, and that's without artificial sweeteners. Slender from Carnation. Dieting without nonsense.
