Service to the Community

Multiple talks about climate change, sustainability, and the oceans to the public, see Invited Talks.

2023 Organized Karama (Cairo) climate workshop for teenage girls from MENA attending UNFCCC COP 28 in Dubai. Forty-one people from Yemen, Palestine, Lebanon, Sudan and other countries in the Middle East and North Africa (MENA) region participated in a climate change workshop for the international NGO, Karama. Karama works on gender equity issues, and the NGO is sponsoring teenage girls from MENA to attend the next climate talks-- the Conference of Parties (COP) 28 in Dubai in November. The workshop featured a climate science 101 session by Associate Dean of the School of Sciences at Monmouth University, Dr. Catherine Duckett. Then Director of the Monmouth Urban Coast Institute, Tony MacDonald, a veteran of COPs, explained what to expect in Dubai and how COPs work. MacDonald will be at COP 28 and he will meet with the girls from Karama there to introduce them to his network. Then I explained the United Nations climate governance system and organized the sessions.
