

COVID Vaccination Clinics for Fall 2022

Monmouth University in conjunction with Visiting Nurse Association of Central Jersey (VNACJ) will be offering monthly **on-campus COVID Vaccination Clinics** for the Fall 2022. All clinics will be held in the **Rebecca Stafford Student Center, Anacon A Hall, from 2pm – 6pm**. No appointment is necessary. Family members of employees may also attend; the clinics are open to the public.

The FDA has approved both the Pfizer and Moderna Omicron booster doses and we are awaiting CDC guidelines, anticipated to be published shortly. The VNACJ plans to have both the updated Moderna and Pfizer boosters at the COVID Vaccination clinics.

COVID Vaccination Clinic Information:

- **Date: Tuesday, September 27, 2022**
- **Date: Thursday, October 13, 2022**
- **Date: Thursday, November 10, 2022**
- **Date: Wednesday, December 7, 2022**

Currently, the COVID 19 primary series vaccination is recommended for all persons age 6 months and older and boosters for all eligible persons ages 5 years and older. As a reminder, new booster guidelines will be published by the CDC within the next week. We will update you with the latest information once it is received.

People who are immunocompromised have somewhat different recommendations for COVID19 vaccines and should check with their primary care physician or review information available on the [Center for Disease Control \(CDC\) website](#).

Please note that vaccine recommendations are based on your age, the vaccine you first received and the time since the last dose received. As mentioned above there is a different set of criteria for those with immunocompromised health. If you are unsure about your eligibility for a booster please use the [CDC's Booster Tool](#).

Looking forward to a great Fall semester!
