

my Social Security

How to Create an Online Account

You can create a *my* Social Security account to access your *Social Security Statement* to check your earnings and get your benefit estimates.

If you receive benefits, you can also:

- Get your benefit verification letter;
- Change your address and phone number;
- Start or change your direct deposit;
- Request a replacement Medicare card; and
- Get a replacement SSA-1099 or SSA-1042S for tax season.

Even if you do not currently receive benefits, you can:

- Check the status of your application or appeal.
- Get a benefit verification letter stating that you:
 - never received Social Security benefits, Supplemental Security Income (SSI) or Medicare; or
 - received benefits in the past, but do not currently receive them (The letter will include the date your benefits stopped and how much you received that year.); or
 - applied for benefits but haven't received an answer yet.

You may be able to use your free *my* Social Security account at www.socialsecurity.gov/myaccount to request a replacement Social Security card online, as long as you live in one of the participating states or the District of Columbia, are not requesting a name change or any other change to your card, and you meet other requirements.

There is no fee to create a *my* Social Security account, but you must have an email address. See other side for instructions on setting up an account using an activation code.

Email account set up

There are many options available to set up an email address and it can be done in as little as five minutes. Each email provider has its own criteria for setting up an account and you must accept the provider's terms of use agreement. Some examples of free email providers include:

AOL: aolmail.com

Gmail: gmail.com

iCloud Mail (Apple): icloud.com

Outlook: outlook.com

Yahoo: yahoo.com

**This is not a complete list of email providers. Social Security is not endorsing any of these particular email account provider(s), as you may use other email account providers as appropriate.*

NOTE: *Even if you do not use email on the computer, if you have a smart phone it is likely that you already have an email account. Contact your cell phone service provider to find out.*

Setting up your own *my* Social Security account

After you have a valid email address, you are ready to set up your own *my* Social Security account. To set up your account, visit www.socialsecurity.gov/myaccount then follow the steps below and on the back of this page:

Select “Create an Account.”

To create a *my* Social Security account, you must be at least 18 years old and have:

- A valid email address;
- A Social Security number; and
- A U.S. mailing address.

Setting up an account is quick, secure, and easy. Join the millions and create an account now!

*With instant access to your *Social Security Statement* at any time, you will no longer receive one periodically in the mail, saving money and the environment. Thank you for Going Green!

If you would like to receive your *Social Security Statement* by mail, please follow these instructions.

Enter Activation Code

Using Your Activation Code to Create Your Account

You may have been given a letter with an activation code to complete the creation of your *my* Social Security account.

- Select “Finish Setting Up Your Account” and:
 - Enter the information requested, including the account activation code we gave you.

Screenshot of the Social Security Administration website showing the 'Finish Setting Up your Account - Verify Identity' page. The page includes a progress bar with three steps: 1. Verify your identity, 2. Create your Account, and 3. Confirmation. The 'Verify your identity' step is active. The page asks for personal information: 'Please tell us who you are' (Name, Social Security Number (SSN), Date of Birth), 'Privacy & Security' (Find out more about our policies and procedures), and 'Please enter the account activation code we gave you' (Account Activation Code). The 'Account Activation Code' field is circled in red.

Provide some personal information to verify your identity.

Screenshot of the Social Security Administration website showing the 'Create an Account' page. The page has three steps: 1. Verify your Identity, 2. Secure your Identity, and 3. Create your Account. The 'Verify your Identity' step is active. The page asks for personal information: 'Please tell us who you are' (Your Name: As shown on your Social Security card, First, M.I., Last, Suffix).

Choose a username and password; then, select how you would like to receive a one-time security code by providing the email address you registered or text-enabled cell phone number. You'll then receive a security code via text or email that you will need to enter within 10 minutes to finish creating your account.

Screenshot of the Social Security Administration website showing the 'Get your security code' page. The page asks for a 10-digit cell phone number and how to receive the security code: Text Message (selected) or Email. The 'Text Message' option is selected, and the text 'Your rates still apply.' is visible.

Screenshot of the Social Security Administration website showing the 'Please enter your security code' page. The page provides instructions for receiving the security code via text message or email. The 'Enter the security code you just received.' field is circled in red.

Note: We'll send a one-time security code to your cell phone or to your email address each time you sign in with your username and password. The security code is part of our enhanced security feature to protect your personal information. Keep in mind that your cell phone provider's text message and data rates may apply.
