

Living **Green** Off-Campus

Traveling Green

For the 2nd week in a row, we have a fellow student to thank for our Living Green Off-campus e-letter. Thank you Jonathan!

As Jonathan notes: I found this website that lets you offset your carbon footprint for air travel on JetBlue Airways travel. It calculates how much of a carbon footprint you create... and tells you how much to donate to carbonfund.org to offset your carbon footprint. The way it works... the money you donate goes towards reducing Carbon elsewhere!!
