NATIONAL: COVID-19 IMPACT ON DAILY LIFE HEIGHTENS

Many report increased stress, layoffs, shortages, loneliness

West Long Branch, NJ – The number of Americans who say the COVID-19 outbreak has had a major impact on their lives has risen by 9 points in the past three weeks, according to the *Monmouth (“Mon-muth”) University Poll*. Half report dealing with shortages of supplies and food, 4 in 10 have suffered a loss in income, and 1 in 4 are feeling lonelier. About 1 in 14 Americans say that someone in their family has gotten the coronavirus, with a higher prevalence among racial minority groups. Still, the vast majority of the public is hopeful that life will return to normal once the current emergency passes.

Half the public (50%) is very concerned about someone in their family becoming seriously ill from the coronavirus, which is up from 38% who were very concerned just three weeks ago. Another 33% are somewhat concerned, 9% are not too concerned and 7% are not at all concerned. While all demographic groups have shown an increase in concern, women (57%, up from 45% last month) and Americans who are black, Latino, Asian or of other races (60%, up from 52%) remain more likely than men (43%, up from 31%) and those who are white (46%, up from 31%) to be very concerned. Those aged 55 and older (56%, up from 49%) and 35 to 54 years old (52%, up from 38%) are more likely to be very concerned about this than those 18 to 34 years old (42%, up from 27%). More Democrats (66%, up from 58%) are very concerned than independents (46%, up from 31%) and Republicans (37%, up from 24%).

One in four Americans (26%) personally know someone who has gotten the coronavirus, including less than 1% who say they have had it themselves and 7% who say someone they are related to has had it. By race, those who are white (5%) are less likely than those who are Latino or of another race (12%) to report that they or someone in their family has gotten the coronavirus.

“Americans feel an increasing impact from this public health crisis every week, maybe even every day. These results also underscore how certain groups, particularly racial groups, are being hit

harder than others,” said Patrick Murray, director of the independent Monmouth University Polling Institute.

Currently, 62% of Americans report that the outbreak has had a major impact on their daily lives which is up from 53% in late March. Another 27% say it has had a minor impact and just 10% say it has had no real impact. The biggest increase in feeling a major impact from the pandemic is seen among Republicans (55%, up from 40% last month) compared with independents (64%, up from 57%), and Democrats (66%, up from 61%).

A large number of American households have taken an economic hit during this public health crisis. Four in ten (41%) have lost income due to a decrease in work (up from 35% in late March). Income loss has hit households at all income levels (42% of those earning less than \$50,000 a year, 40% of those earning \$50,000 to under \$100,000, and 43% of those earning \$100,000 or more). Just over 1 in 5 (22%) report having struggled to pay bills because of the health crisis (including 36% of those earning less than \$50,000 a year, 13% of those earning \$50,000 to under \$100,000, and 12% of those earning \$100,000 or more).

Thirty percent of Americans report that someone in their household has been laid off from work because of the outbreak, including 7% who report that all wage-earners in their household are currently out of work. People reporting layoffs in their household include 35% of those earning less than \$50,000 a year, 34% of those earning \$50,000 to under \$100,000, and 26% of those earning \$100,000 or more.

The number of people working from home for the first time has also increased, from 20% late last month to 27% in the current poll. Those earning \$100,000 or more (41%) are more likely to be working remotely than those earning \$50,000 to just under \$100,000 (27%), or less than \$50,000 (21%).

While many families have taken an economic hit in the past few weeks, most Americans continue to feel their financial situation is basically stable (62%). Another 26% say they are struggling and 11% say their finances are improving. These results are virtually identical to last month’s poll (61% stable, 26% struggling, and 11% improving).

“Americans seem to be approaching the current situation as something that will hopefully pass quickly. This could change if the immediate economic slump drags on after the health emergency passes,” said Murray.

Another significant impact for the American public has been trouble finding necessities. Just over half (52%) report there are items they need right now they cannot find in stores or online. Topping this unfulfilled shopping list is toilet paper (23%). Health and cleaning supplies are also reported as missing in action, including hand sanitizer (16%), disinfectant spray (10%), antibacterial wipes (9%), rubbing alcohol (5%), and bleach and other cleaning supplies (10%), as well as other paper products such as paper

towels and tissues (11%). Face masks (10%) and other medical items (2%) are also mentioned. Some also report they cannot find certain types of fresh food (13%) or other food items (4%).

One-third of Americans (33%) say they have bought more of certain groceries and supplies than they normally do. Another 9% say they have actually bought less than usual since the outbreak, but most (58%) say the amount they buy has not changed. Just under 1 in 5 (18%) have started getting groceries delivered (up from 12% in late March) and 31% have spent more time shopping online (up from 22% last month).

The *Monmouth University Poll* also finds that 29% of the public say their lifestyle – what they eat and how much they exercise – has become less healthy since the outbreak, 14% say their lifestyle is more healthy, and 57% say it is the same. At the same time, 63% say they are spending more time watching TV and movies (up from 57% last month).

“Financial difficulties aren’t the only concern arising from this crisis. Many Americans are coping with challenges to their emotional well-being because of the restrictions on normal daily activities,” said Murray.

A majority (55%) say their daily stress level has gone up during the outbreak, including 27% who say it has gone up a lot and 28% who say it has gone up a little. Another 40% say their stress level has not changed and 5% say it has actually gone down during the outbreak. Those earning \$100,000 or more (68%) are more likely to report increased stress levels than those earning \$50,000 to under \$100,000 (52%), or less than \$50,000 (49%).

One in four Americans (25%) report feeling more lonely since the outbreak, 7% feel less lonely, and 68% say there has been no change in their feelings of loneliness. More than 3 in 4 (77%) have not been going out to stores and businesses as often as usual (up from 66% who said this last month).

Still, the vast majority of Americans (69%) feel very hopeful that they and their families will be able to get their lives back to normal after the pandemic. Another 26% are somewhat hopeful, while very few are not too (3%) or not at all (1%) hopeful.

The *Monmouth University Poll* was conducted by telephone from April 3 to 7, 2020 with 857 adults in the United States. The question results in this release have a margin of error of +/- 3.4 percentage points. The poll was conducted by the Monmouth University Polling Institute in West Long Branch, NJ.

QUESTIONS AND RESULTS

(* Some columns may not add to 100% due to rounding.)

[Q1-3 previously released.]

4. Thinking about your current financial situation, would you say you are struggling to remain where you are financially, basically stable in your current financial situation, or is your financial situation improving?

TREND:	April 2020	March 2020	April 2019	April 2018	Jan. 2017
Struggling	26%	26%	20%	24%	29%
Stable	62%	61%	54%	51%	51%
Improving	11%	11%	25%	23%	20%
(VOL) Don't know	2%	1%	1%	2%	0%
(n)	(857)	(851)	(801)	(803)	(801)

5. How concerned are you about someone in your family becoming seriously ill from the coronavirus outbreak – very concerned, somewhat concerned, not too concerned, or not at all concerned?

TREND:	April 2020	March 2020
Very concerned	50%	38%
Somewhat concerned	33%	32%
Not too concerned	9%	18%
Not at all concerned	7%	12%
(VOL) Don't know	0%	0%
(VOL) Has already happened	0%	n/a
(n)	(857)	(851)

6. Do you personally know anyone who has gotten the coronavirus? [If YES: How do you know this person or persons?]

	April 2020
Self	<1%
Family	7%
Friend	12%
Work	5%
Patient	1%
Other	1%
No one	74%
(n)	(857)

[Q7-13 previously released.]

14. Thinking about you personally, has the coronavirus outbreak had a major impact, minor impact, or no real impact on your own daily life?

TREND:	April 2020	March 2020
Major impact	62%	53%
Minor impact	27%	32%
No impact	10%	15%
(VOL) Don't know	1%	0%
(n)	(857)	(851)

15. Have you personally done any of the following or had any of the following happen because of the coronavirus outbreak? [ITEMS WERE ROTATED]

TREND:	Yes, have done/has happened	No, have not done/has not happened	(VOL) Don't know	(n)
Started to work from home for the first time -- March 2020	27% 20%	72% 79%	0% 1%	(857) (851)
Lost income due to a decrease in work hours or less business -- March 2020	41% 35%	59% 64%	1% 1%	(857) (851)
Had problems finding child care -- March 2020	8% 7%	91% 89%	1% 4%	(857) (851)
Started getting your groceries delivered -- March 2020	18% 12%	82% 87%	0% 1%	(857) (851)
Spent more time shopping online -- March 2020	31% 22%	69% 78%	0% 0%	(857) (851)
Spent more time watching TV and movies -- March 2020	63% 57%	37% 42%	0% 1%	(857) (851)
Have not gone out to stores and businesses as often as you usually do -- March 2020	77% 66%	23% 33%	0% 0%	(857) (851)
Struggled to pay your bills -- March 2020	22% n/a	78% n/a	0% n/a	(857) n/a

16. Have you or someone in your household been laid off from work because of the outbreak? [If YES: Is this you or someone else?]

	April 2020
Yes, self	9%
Yes, other person	18%
Yes, self and other	3%
No, no one	69%
(VOL) Don't know	0%
(n)	(857)

17. How many people in your household are currently employed?

	April 2020
None	25%
One	33%
Two	29%
Three	9%
Four or more	4%
(VOL) Don't know	0%
(n)	(857)

18. How concerned are you that someone in your household who is currently employed will lose their job because of the coronavirus outbreak – very concerned, somewhat concerned, not too concerned, or not at all concerned?

	April 2020
Very concerned	12%
Somewhat concerned	19%
Not too concerned	16%
Not at all concerned	27%
<i>All wage earners already out of work (from Q16/17)</i>	7%
<i>No one in household employed (from Q17)</i>	19%
(VOL) Don't know	1%
(n)	(857)

19. Since the outbreak, have you bought more of certain groceries and supplies than you normally do, about the same as you normally do, or less than you normally do?

	April 2020
More than normal	33%
About the same as normal	58%
Less than normal	9%
(VOL) Don't know	0%
(n)	(857)

20. Are there any items you need right now that you cannot find in stores or online? [If YES: What are they?] [Note: Results add to more than 100% because multiple responses were accepted]

	April 2020
No, can find what I need	48%
Toilet paper	23%
Other paper products (towels, tissues)	11%
Masks	10%
Other medical supplies	2%
Hand sanitizer	16%
Antibacterial wipes	9%
Disinfectant spray, Lysol	10%
Rubbing alcohol	5%
Bleach, other cleaning supplies	10%
Fresh food (eggs, bread, milk)	13%
Other food items	4%
Other	5%
(VOL) Don't know	0%
(n)	(857)

21. Would you say your lifestyle, including what you eat and how much you exercise, is more healthy or less healthy since the coronavirus outbreak, or is it about the same?

	April 2020
More healthy	14%
Less healthy	29%
About the same	57%
(VOL) Don't know	0%
(n)	(857)

22. How much has your daily stress level changed during the outbreak – has it gone up, gone down, or stayed about the same? [Has it gone up/down a lot or a little?]

	April 2020
Gone up a lot	27%
Gone up a little	28%
Stayed about the same	40%
Gone down a little	3%
Gone down a lot	2%
(VOL) Don't know	0%
(n)	(857)

23. Are you feeling more lonely or less lonely since the outbreak, or has this not changed? [Are you feeling a lot or a little more/less lonely?]

	April 2020
A lot more lonely	10%
A little more lonely	15%
Not changed	68%
A little less lonely	4%
A lot less lonely	3%
(VOL) Don't know	0%
(n)	(857)

24. And are you very hopeful, somewhat hopeful, not too hopeful, or not at all hopeful that you and your family will be able to get your lives back to normal after the outbreak is over?

	April 2020
Very hopeful	69%
Somewhat hopeful	26%
Not too hopeful	3%
Not at all hopeful	1%
(VOL) Don't know	1%
(n)	(857)

[Q25-34 previously released.]

METHODOLOGY

The *Monmouth University Poll* was sponsored and conducted by the Monmouth University Polling Institute from April 3 to 7, 2020 with a national random sample of 857 adults age 18 and older. This includes 345 contacted by a live interviewer on a landline telephone and 512 contacted by a live interviewer on a cell phone, in English. Telephone numbers were selected through random digit dialing and landline respondents were selected with a modified Trol Dahl-Carter youngest adult household screen. Monmouth is responsible for all aspects of the survey design, data weighting and analysis. The full sample is weighted for region, age, education, gender and race based on US Census information (CPS 2018 supplement). Data collection support provided by Braun Research (field) and Dynata (RDD sample). For results based on this sample, one can say with 95% confidence that the error attributable to sampling has a maximum margin of plus or minus 3.4 percentage points (unadjusted for sample design). Sampling error can be larger for sub-groups (see table below). In addition to sampling error, one should bear in mind that question wording and practical difficulties in conducting surveys can introduce error or bias into the findings of opinion polls.

DEMOGRAPHICS (weighted)
