

The goal of this report is to share the available state data on novice teachers that this Educator Preparation Provider (EPP) recommended for certification. To create the report, the New Jersey Department of Education (NJDOE) has synthesized data from multiple sources. A list of these sources is available at the end of this report. Unless otherwise indicated, the data used in this report represents a one year cohort of teachers who earned a Certificate of Eligibility with Advanced Standing (CEAS) in the 2018-2019 school year who may have been employed in the 2020-2021 school year in a New Jersey public school. For additional details see further explanation in the glossary on the last page.

This report provides information in the following key areas:

Mission^{1a}:

The School of Education's mission is to be a leader in the preparation of highly competent, reflective teachers, and other professional educators (e.g., administrators, counselors, and reading specialists) who have the knowledge, 21st-century skills, and dispositions required to improve the teaching and learning of students in a highly pluralistic democratic society. Toward this end, our candidates are prepared to serve all students from diverse backgrounds in terms of abilities, age, culture, race, ethnicity, family, lifestyle, and socioeconomic status. Through clinically based field experiences in a wide range of local school and community settings, our candidates practice and demonstrate the utilization of 21st-century skills in their work with students, teachers, and school leaders. Our goal is that candidates use their thorough knowledge of learners and learning to promote positive student outcomes and achievement. Our programs link theory and practice and are designed to instill a commitment to lifelong learning and reflection.

Institutional Context^{1b}:

The Monmouth teacher preparation program combines extensive clinical experiences with a rigorous college curriculum. Graduates work in schools as P-3, special education, elementary, secondary (all content areas: Science, SS, English, Math, etc), foreign language, and literacy specialists. Instruction on practice and theory are integrated in innovative ways, such as our Teacher Residency Program. The Monmouth University Teacher Residency program is an opportunity to be part of the leading edge in teacher preparation. The vision is to create a wholly new type of teacher preparation, one in which teacher candidates are compensated for an extensive school residency, much like medical residents are now trained. In this new world of teacher preparation, teacher residency graduates will be more capable and confident in their teaching with resulting increase in student performance. Monmouth graduates are confident teachers, who possess both the skill and understanding to use highly effective, research-based instructional strategies that promote P-12 student learning
