

The Center for Professional Development in Nursing and Health

ECG Interpretation

Date: December 2, 2022 **Time:** 1:00 - 4:15 PM

Location: Monmouth University – Monmouth Corporate Park

Fee: \$95 MU Students, Alumni and Preceptors \$90

Contact Hours: 3.0 will be provided for Nurses

An instructional manual is included in the program fee

Recommended for those with some basic ECG exposure, participants will review basic cardiac electrophysiology and learn how to correctly interpret a 12 lead ECG by using “hands-on” instructional methods. A focus will be on the evaluation and identification of findings that can be obtained through a systematic review of this commonly ordered diagnostic test.

Key topic areas include:

- Analyze and interpret 12-lead ECG
- Observe both normal, abnormal, common and, (some) uncommon findings
- Identify common dysrhythmias according to ACLS guidelines
- Interpret/differentiate EKG patterns in Acute Coronary Syndromes

Presenter: Dr. Charles Miller, MD, FACC, Director of Cardiac Diagnostic Services, Integrated Medicine Alliance, Shrewsbury, NJ.

Successful Completion: Participants will attend 95% of the program, and complete an online evaluation to receive contact hours. None of the planners for this educational activity have relevant financial relationship(s) to disclose with ineligible companies whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients. There is no commercial support for this activity.
