

“MU-Secure” Wireless Network Connection Setup – Windows 10 (Local Users)

 <p>A screenshot of the Windows 10 network settings window. The 'MU-Secure' network is selected and highlighted in blue. A yellow callout box with the number '1' points to the 'Connect' button. Another yellow callout box with the number '2' points to the 'MU-Secure' network name. The list of networks includes: MU-Secure (Secured, Connect automatically checked, Connect button), ocbbnnet (Open), VizioCastDisplay2496 (Open), eduroam (Secured), HP-Print-84-LaserJet Pro M201dw (Secured), and XFINITY (Secured). The 'Network settings' link is visible below the list. At the bottom, the 'Wi-Fi' toggle is turned on and 'Airplane mode' is turned off. The system tray shows the time as 10:39 AM on 11/15/2016.</p>	<ol style="list-style-type: none">1. Click the Wireless Network icon.2. Select MU-Secure and click Connect.
 <p>A screenshot of the 'MU-Secure' login dialog box. The title bar says 'MU-Secure Secured'. The text 'Enter your user name and password' is displayed. The username field contains 'jwinkley' and is highlighted with a yellow callout box containing the number '3'. The password field is masked with dots and is highlighted with a yellow callout box containing the number '4'. At the bottom, there are 'OK' and 'Cancel' buttons. The 'OK' button is highlighted with a yellow callout box containing the number '5'.</p>	<ol style="list-style-type: none">3. Type your Monmouth University username (do not include your Domain).4. Type your Monmouth University password.5. Click OK.

	<p>6. When you get the message, “Continue connecting?” click Connect.</p>
	<p>7. You are now connected to MU-Secure.</p>
